All performance results which follow are hypothetical.

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM. ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THAT THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ALSO ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS. STAFFORD TRADING HAS HAD NO EXPERIENCE IN TRADING ACTUAL ACCOUNTS ON THIS SYSTEM. BECAUSE THERE ARE NO ACTUAL TRADING RESULTS TO COMPARE TO THE HYPOTHETICAL PERFORMANCE RESULTS, CUSTOMERS SHOULD BE PARTICULARLY WARY OF PLACING UNDUE RELIANCE ON THESE HYPOTHETICAL PERFORMANCE RESULTS.

About the System Vendor

You could call Lundy S. Hill a lifetime veteran of the commodity futures markets. Having grown up in a prominent trading family, he was tutored by some of the best, predominantly by his father; John Hill, world famous trader, author and speaker. He made his first trade before he could drive a car.

Lundy graduated from Clemson University with a degree in electrical / computer engineering and a business minor. After graduation, opportunity took him to Florida. There, he was a part of every young man's dream: working for the NASA space program. As a computer engineer for Lockheed Corporation, NASA's largest subcontractor, Lundy worked directly on the Space Shuttle program. His division was responsible for the entire electrical power distribution system for the shuttle. A critical function and time at NASA. As this would be the rebuilding of the space program after the Challenger explosion.

After NASA, Mr. Hill started his futures career in earnest by working on the floor of the Chicago Mercantile and Chicago Board of Trade. He became an independent "local" trader in the U.S. Treasury Bond Pit. After three years on the floor, he tired of "elbowing " his way to trading success. He moved off the floor and specialized in computer aided trading.

Mr. Hill started Stafford Trading Company, a registered Commodity Trading Advisor. It sells trading systems for diversified markets, Stock indexes and money management methods. His goal is to help the average trader achieve above average profitability. He attempts to accomplish this goal through strict, well-thought out and well-tested trading systems and money management.

Lundy Hill is applying his background as a true "rocket scientist" to the ups (and downs) of the futures markets.

Lundy Hill co-authored
The Ultimate Trading Guide
with his father John R. Hill and their
computer programmer, George Pruitt.
